

Ardiente

Ardiente is a young radiant red wine that is glowing with fruity character and intense colors of red and violet. Ardiente is a result of quality spanish grapes grown in the warmth of south-eastern Spain. These sun kissed grapes have been harvested with a high sugar concentration resulting in a wine with 15% alcohol. Ardiente is an explosion of ripe red and black berry fruit aromas and flavors with refreshing acidity and velvet tannins. Ardiente can be enjoyed during any occasion, be it a celebration with friends or a passionate evening under the glowing stars.

WINE MAKING
